Feature List

MyReport Version 8.0.2.0

Agile. Simple. Affordable

Updated features list of MyReport Version 8.0.2.0

MyReport 8.0.2

One foot in the data visualization (data viz)

- Graphics flat design
- Enhanced graphics customization
- Custom layout
- Planned for mobility
- Reporting in XML (Target: Editors)

Better drive the activity around MyReport, with new logs and a homogenization of all the logs to follow:

- Service restarts
- Using licenses (who use MyReport? how many connections failed due to lack of licenses?)
- Exploitation of projects (what projects are open?)
- The opening of reports in the Center (who opened what reporting and when?)
- The smooth running of ETLs
- Good reception of broadcasts

MyReport Builder

- Customizing color graphics
- Transformed dimensions
- New report format

General

- Load optimized remote projects (parallelization and load compression)
- Activate / deactivate the Wire from the start menu
- Ability to import users from the command line
- +80 bugs fixed
